Hi,

Ideally, a list of sources used should be included after a formal reference list where you provide just the website link for any assets you have used. You don't need to reference the use of clip art, just a mention somewhere would be sufficient.

Best,

Lilit

Dear Dr. Lilit,

I am writing to let you know that I have question regarding references:

1. Do I need to provide references for any assets that were used in my software deliverable i.e., icons?
2. Do I need to reference any images that I have found using clip art?

Kind Regards,
Ibrahim Ahmad
